## PROFILE SUMMARY

Dedicated second-year Computer Science Engineering student with strong programming fundamentals in Python, C, C++, and Java. Skilled in web development using HTML5, CSS, and JavaScript, with experience in Git and GitHub for version control. Interested in Artificial Intelligence, Data Science, and Agentic AI, with practical exposure to Google Cloud Platform (GCP) and IBM Cloud. Seeking opportunities to apply technical skills, build scalable solutions, and continuously learn emerging technologies.

## EDUCATION

**Bachelor Of Technology In (AI & DS) with IBM**

**Aug 2024 - Aug 2028**

Arka Jain University, Jamshedpur | 2nd Year

CGPA : 9.56

**Intermediate(12th)**

**2024**

Surajmull Jain DAV Public School, Chaibasa

Percentage : 85.2%

**Matriculation(10th)**

**2022**

Surajmull Jain DAV Public School, Chaibasa

Percentage : 94.8%

## SKILLS

- Languages : C, C++, Python, Java, HTML, CSS, JavaScript
- Database : MySQL
- Tools : VS Code, GitHub, Canva
- Platforms : Google Cloud, IBM Cloud

## CERTIFICATIONS & DIGITAL BADGES

- [60+ Verified Certifications on Credly](#)
- [IBM Full Stack Software Developer](#)
- [5-Day AI Agents Intensive Course with Google](#)
- [Completed 100+ Hands-On Labs and Skill Badges through Google Arcade](#)
- [Foundations: Data, Data, Everywhere by Google](#)

## PROJECTS

- **QR Made Easy**

Description: Developed QR Made Easy, a web app for generating, customizing, and scanning QR codes in one platform. Enabled customization of QR codes with brand colors, logos, and multiple formats (PNG, JPEG, SVG). Ensured scannable logos, readable color contrasts, and efficient image cropping for user-friendly outputs.

Technologies Used: Python, Streamlit, Segno, Pyzbar, Pillow, NumPy, IO

- **MediSense**

Description: Developed an AI-powered web application that simplifies patient medical reports by extracting and summarizing key health information in clear and user-friendly language. Implemented secure file upload and processing for multiple formats (PDF, JPG, TXT) and integrated AI models to generate accurate and easy-to-understand insights. Designed a responsive and accessible user interface with smooth navigation and a strong focus on usability and data clarity.

Technologies Used: React, HTML, CSS, JavaScript, AI/NLP APIs, IBM Cloud
